The 11th Closet

THE FIRST EDITION

A GUIDE FOR MEMBERS

The *Lookbook.*

Your closet, finally understood.

Snap your clothes once. The 11th Closet tags them, styles them, rates your outfits, plans your events and shows you what your wardrobe is really worth. Inside: what it does, how to start, and the story behind it.

Android · iPhone · Web

Everything you need to *know.*

01 What it is

The 11th Closet is a personal wardrobe app with an AI stylist inside. You photograph your clothes once; it cuts them out, names and tags them, and from then on it knows your closet. It suggests what to wear for today's weather, rates the outfits you build, plans looks for weddings, festivals and trips, reminds you of the pieces you've forgotten, and every month wraps your style into a story you can share. Unlike a general chatbot, it **remembers every piece you own and everything you've worn**, so its advice is about *your* wardrobe, not clothes in general.

WHY THE NAME?

It took eleven bugs to get the first version standing. Each one taught the app something, and the **eleventh** gave it its name.

WORKS ON

Android app · **iPhone** via the web app · any **browser**. Free for members, with a daily AI allowance.

02 What it does

1 Your digital closet
Snap a piece; AI removes the background and tags type, colour, fabric and season.

2 Wear today
A look for today's weather in your city, picked from what you actually own.

3 Outfit builder
Put pieces together and get an honest AI rating with tips to lift it.

4 Stylist chat
Ask anything: "what goes with my olive jacket?" It answers from your closet.

5 Events & trips
Plan weddings, festivals, travel. Looks per day, lock or swap, plus a packing list.

6 Needs some love
Forgotten pieces in a swipe deck: let go, style it, or keep.

7 Closet Wrapped
A story of your month on the 1st, with a new themed edition every month.

8 Learns your style
Likes, skips and wears tune suggestions. Watch "Tuned to you %" grow.

9 Cost per wear
See what each piece really costs you, your most-worn and never-worn.

10 Family profiles
Separate closets for everyone at home, on one phone.

11 Backup & sync
Google sign-in backs up to your own Drive. iPhone: use Export for now.

✦ Nudges & feedback
Gentle reminders, festival heads-ups, and a one-tap way to tell us anything.

03 Start in five minutes

1. **Install** using the link in this email (right), then open it and pick your profile.
2. **Sign in with Google** (optional, Android & web; iPhone coming soon) so your closet is backed up if you change phones.
3. **Add five or more pieces.** Good light, plain background; the AI does the rest.
4. **Log what you wear.** One tap a day is what makes stats, suggestions and Wrapped smart.
5. **Allow notifications** for event reminders and your Wrapped on the 1st of every month.
6. **Add an event** you have coming up and let it plan the looks and the packing.

Android — THE APP
Open the APK link from this email → Download → allow "Install unknown apps" for your browser or Drive → Install. Updates arrive inside the app.

iPhone — WEB APP
Open the web link in **Safari** → Share → **Add to Home Screen**. It opens full-screen like a normal app.

Web & iPhone
Scan to open in any browser.

Behind the *build* 04

Built solo by **snny.alind** in six days, 20 to 25 September 2026: design, code, AI, servers, a private control centre and every test, done late at night between everything else. Claude and Claude Code were his tools; the ideas, the taste and the long nights of testing were his.

6	~26	43,668	68	150+	2	3	11
days, idea to phones	hours of focused build	lines of code	commits shipped	automated tests	apps: yours + control centre	platforms at launch	bugs = one name

YOUR PRIVACY, PLAINLY

Your closet lives **on your phone**. Photos are sent to the AI only to be tagged and cut out, and are not kept on our servers. Backups go to **your own** Google Drive, never ours. No ads, no selling data.

HELP & FEEDBACK

In the app: **Profile** → **Send feedback** (add a screenshot).
Email: **the11thcloset.co@gmail.com**
Instagram: **@the11thcloset.co**

THE END OF THE FIRST EDITION

A NOTE FROM THE AUTHOR

Six days ago this was an idea and an empty folder. Today it's an app on real phones, a control centre, a design system, and eleven bugs that gave it a name. Thank you to every member who opens it, wears something forgotten, and tells me what to fix. The doors close here, for now.

Until

THE SECOND EDITION

It will be built soon.
